Summary

Tech stack: Javascript(ES6+) + Typescript | NodeJS + ExpressJS | React | HTML5 + CSS3/SASS.
Personal website & portfolio: https://penguinweb.eu/
Growth mindset and never-ending learning is my motto.

Experience

Graduated, looking for job => Frontend Developer (React, open to transfer)
Codecool
Jul 2022 - Dec 2022 (6 months)
Tech Stack: Javascript(ES6+) + Typescript | NodeJS + ExpressJS | React | HTML5 + CSS3/SASS |
Since then I've worked with VueJS as well, now I dived into Angular to make my first portfolio project in
this framework as well. Learning new things is fun and I like the challenge. React is my main framework
currently but I like to get to know the other options as well. Please take a look on my portfolio here:

Education

Codecool
Frontend Development
Jul 2022 - Dec 2022
Tech Stack: Javascript(ES6+) + Typescript | NodeJS + ExpressJS | React | HTML5 + CSS3/SASS

In this bootcamp I deepened my knowledge in Javascript, Typescript, React and of course HTML5/CSS3+SASS. Plus I had the chance to dive into NodeJS+ExpressJS as well. I am able to use these technologies confidently.

HarvardX
Introduction to Computer Science
Oct 2022 - Dec 2023
An introduction to the intellectual enterprises of computer science and the art of programming. Programming learning from scratch starting with the basics of how the computer works, moving on with C and other languages.
